

SAY GOODBYE TO SHIMS

The shimless die adapter from Wilson Tool International is the only size 1 to size 2 adjustable adapter on the market for Trumpf-style dies. No more looking around for shims, nor time wasted measuring shims. Simply measure the die thickness, adjust the shimless die adapter to the desired setting, insert the die and you're ready to go.

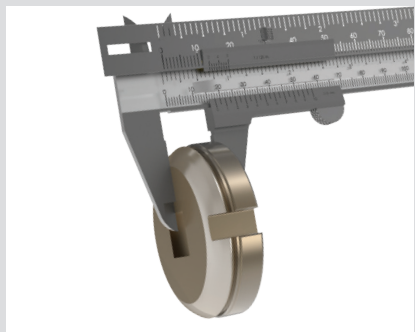

Features and Benefits

- Eliminates the need for shims
- Easy-to-read dial is adjustable in .004" [0.1mm] increments up to .098" [2.5mm] in total height
- 50% faster set-up compared to conventional shim use
- Available with or without brushes

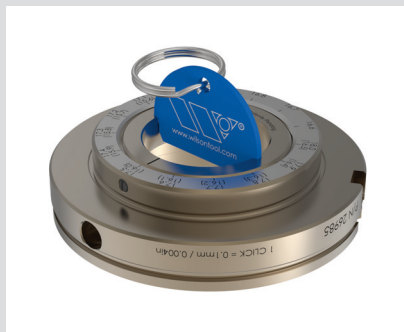

U.S. Patent 11,724,300
International Patents Pending

ADJUST YOUR DIE HEIGHT WITH 3 SIMPLE STEPS

Step 1. Measure die thickness

Step 2. Adjust shimless adapter

Step 3. Insert the die

When you choose tooling for your Trumpf machine, make sure it's from the brand that doesn't just make tooling, but makes tooling better. Wilson Tool offers standard and special punches and dies, parting tools, multi-tools and accessories. Explore ways to get more out of your Trumpf machine with Trumpf-style tooling from Wilson Tool at [wilsontool.com/trumpf](https://www.wilsontool.com/trumpf).

TRUMPF is a trademark of TRUMPF GmbH + Co. KG.
