

GET THE MOST OUT OF YOUR TOOLING

HP2 Thick Turret Punch and Guide Assemblies from Wilson Tool International offer sheet metal manufacturers the opportunity to get the most out of their tooling. HP2 spring packs are compatible with HP & Metric full-body punches, as well as Amada® thick turret punches. They provide the added benefits of increased grind life, tool-less punch change, and the easiest punch length adjustment in the industry.

Increased Grind Life

Spend less money for more hits with increased grind life and get the most out of your punches.

- Average punch grind life of .420"
- OEM punches achieve more than 2X the grind life when used in a Wilson Tool Metric HP2 Spring Pack Assembly

Easy Punch Adjustments

No more pressing buttons, removing guides or shimming to adjust your punch length — just twist and go.

- Fast and accurate tool length adjustments in .005" increments
- Adjust the punch in or out of the machine
- Increased punch length adjustment

Tool-Less Guide Removal

Save time and resources when performing maintenance and changing out tools.

Average Grind Life* of A & B Station Metric Style Punches

HP2	Basix
.420"	.250"
	

*Grind life is dependent upon tool maintenance and application.

HP2 Punch & Guide Assemblies
