

Ultimate flexibility with the B Station Quicktap® Tapping Tool

Fastest, most reliable tapping tool on the market

QuickTap tapping tools tap up to 200* holes per minute, and are made and serviced by Wilson Tool International. That means you get the responsiveness and delivery you expect from the provider you trust. Start saving the time and accuracy that's lost by using a secondary threading application.

QuickTap Features:

- Produce accurate threads at any programmed location on the sheet
- Uses thread forming taps that create a 30% stronger tapped hole compared to conventional cutting taps
- Tapping injection system's large tank enables tapping up to 40,000** holes before refilling
- Taps are easily changed – no disassembly required
- Pitch inserts and taps are interchangeable with C-Station QuickTap
- Tool lubrication is made simple through the use of external grease and oil ports
- Available tap sizes – M2.5-M5
- Now available for B-Station thick turret punch presses (C- and D-stations also available)

Best-in-class Replacement Parts and Service:

Tapping is an important part of many manufacturing operations and uses several consumable products that are easily replaced through Wilson Tool. Having a fast, reliable service provider is key to getting your operation back up and running.

NOTE

* MAXIMUM NUMBER OF TAPPED HOLES BASED ON IDEAL MATERIAL THICKNESS, TAP SIZE AND HOLE PITCH

** SUBJECT TO TANK SIZE AND OIL PUMP SETTINGS
