

MAKE YOUR MARK

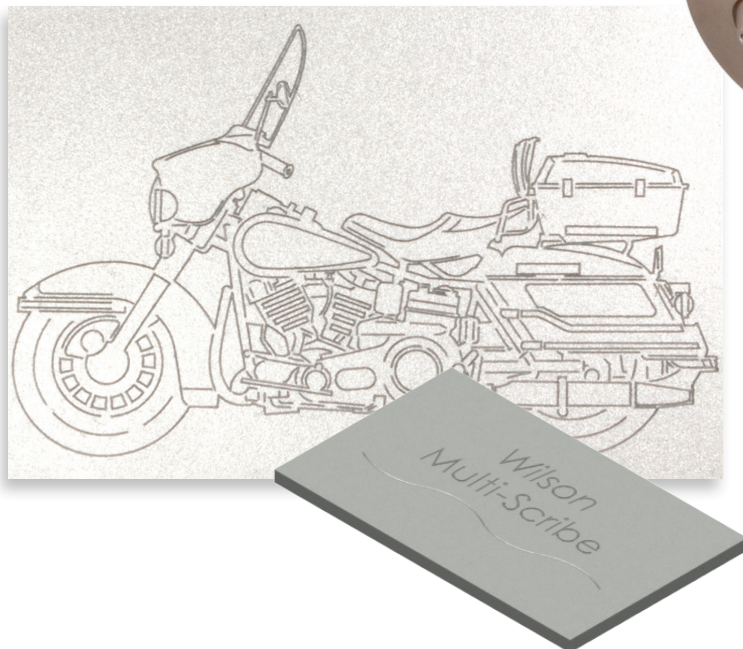

Wilson Multi-Scribe sheet marking tool from Wilson Tool International offers an unlimited range of sheet marking options. It can be used for both sheet scribing and dot-matrix marking on a wide range of materials, eliminating the need to change tools every time you need to make a different mark.

Unbeatable Accuracy

With its long-lasting diamond tip and modifiable scribe depth, Wilson Multi-Scribe is designed for maximum accuracy, ensuring that logos, serial numbers and other inscriptions are represented with clarity and precision.

Engineered for Quality

The meticulous design of Wilson Multi-Scribe allows for consistent mark depth even when surface variations occur. And, the tool is guaranteed not to deform the material or mark the underside of the sheet.

Use Wilson Multi-Scribe for:

- Sheet scribing or dot-matrix marking
- Marking a variety of materials
- Applications requiring a variable scribe depth
- Providing a consistent mark depth
- Thick, Thin, Fab, TRUMPF and 114 Wiedemann tooling styles

TRUMPF is a trademark of TRUMPF GmbH + Co. KG.
