

INCREASE PRODUCTIVITY, REDUCE DOWNTIME

The MC Machinery ATC Press Brake is the perfect solution for your manufacturing needs. With its advanced tool storage system and rapid tool exchange, you can significantly increase productivity and reduce downtime. Experience the future of press brake technology and take your business to new heights.

Enhanced Efficiency

- Rapid tool changes maximize production and minimize setup times
- Load large tool sections up to 500mm
- Large tool capacity: 32m x 52m

Tool Usage Flexibility

- Operators can use ATC machine as a stand-alone press brake, as well as an automated system
- Flexibility for hot jobs, one-offs, or jobs that use tooling not stored in the tool changer

Superior Quality

- Achieve consistent, high-quality results every time.

Experience the Future of Press Brake Technology

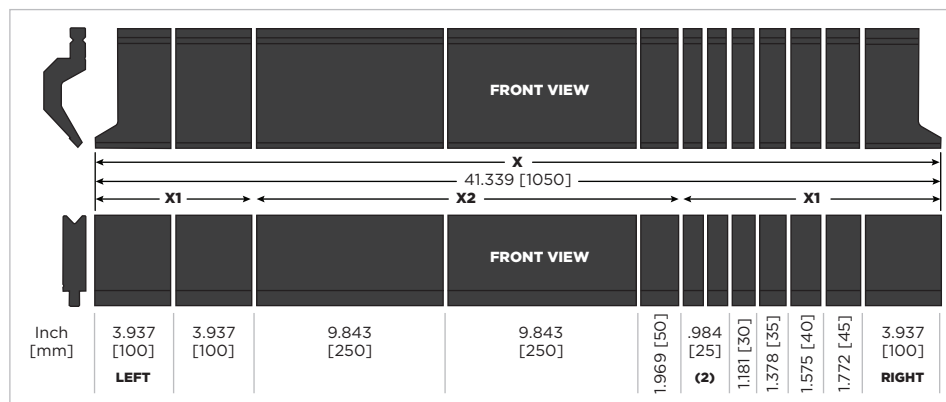

As a trusted partner of MC Machinery Systems, Wilson Tool offers innovative tooling solutions designed to maximize your ATC press brake's efficiency. Our OEM-approved tooling ensures peak performance and durability. Our dedicated team is ready to assist you every step of the way.

Standard Lengths

- **500mm** = 19.685" [500mm]
- **Sectionalized (X)** = 41.339" [1050mm]
- **Sectionalized (X1)** = 19.685" [500mm]
- **Sectionalized (X2)** = 21.654" [550mm]

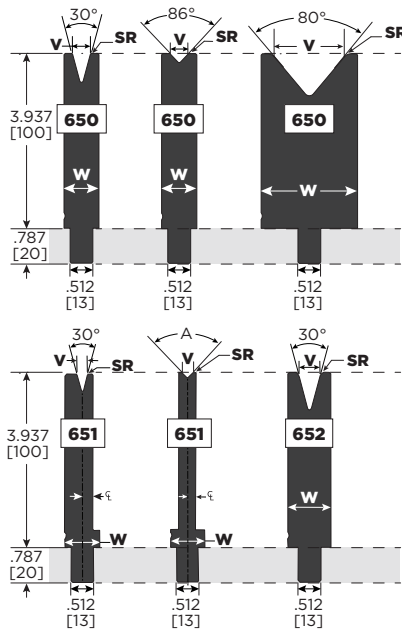

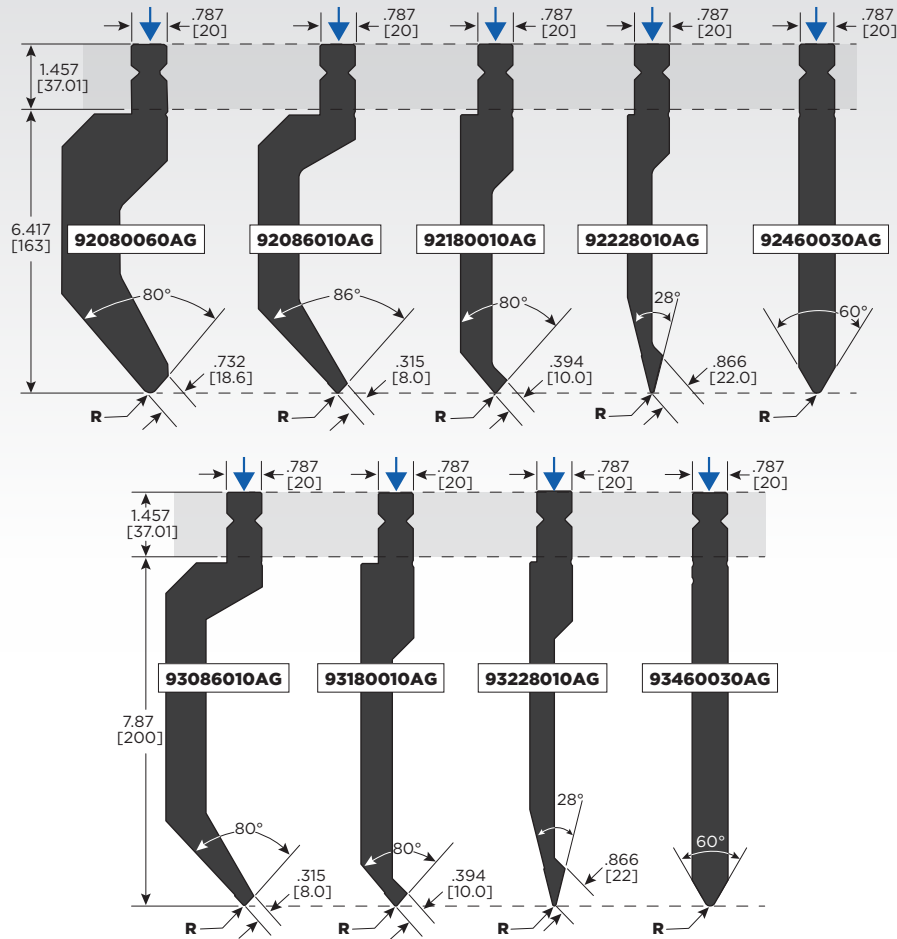

Sectionalized Punch and Die Lengths

Sectionalized Lengths

X1 SET	.984" [25mm]	Qty. 2
	1.181" [30mm]	
	1.378" [35mm]	
	1.575" [40mm]	
	1.772" [45mm]	
	3.937" [100mm]	Left
	3.937" [100mm]	Right
X2 SET	1.969" [50mm]	
	9.843" [250mm]	Qty. 2
