

EXP® FOR SALVAGNINI

Time-tested. In 2011, Wilson Tool introduced the industry's first quick-change punch tip technology, making EXP the proven choice for your tooling needs. Since then, thousands of satisfied users have converted to EXP technology and continue to reap the savings and benefits of this efficient technology.

Longer-lasting Punches. Every EXP punch is manufactured with Wilson's exclusive Ultima® premium tool steel to increase wear resistance. As a result, EXP punches have twice the tool life as most standard punches. With up to twice as long between regrinds, EXP punches made with Ultima tool steel substantially reduce downtime and tool replacement costs.

Faster Tool Changes. Loading EXP is as easy as inserting the punch tip into the punch holder, then turning the key to lock it in place. Switching from one punch to the next can be done in seconds, significantly reducing downtime.

Storage Savings. A fraction of the size of standard punches, EXP punches give you the flexibility to stock more shapes, using less space for storage.

Universal Design. EXP punches offer greater flexibility because they fit into multiple styles of tooling, allowing you to enjoy the ease, speed and durability of EXP for all your punch tooling needs.

SALVAGNINI COMPONENTS	
DESCRIPTION	CAT. NO.
Punch Holder	17712
Punch - Round	17916
Punch - Shape	17917
Stripper - Round	17502
Stripper - Shape	17503
Die - Round	17504
Die - Round Slug Hugger2	17604
Die - Shape	17505
Die - Shape Slug Hugger2	17605
Die Shim Pack	17602
